Applications Accepted Up To:

March 30, 2018

DISTINGUISHING FEATURES OF THE CLASS:

This is routine work involving responsibility for performing semi-skilled plumbing installations in the extension, maintenance and repair of municipal water and sewer system. When assigned, an employee in this class may install, replace and read meters, inspect installations, and investigate complaints. The work is performed under immediate or general supervision depending upon the assignment. Supervision may be exercised over the work of laborers.

TYPICAL WORK ACTIVITIES: (Illustrative Only):

Makes curb taps on water and sewer mains for customer services;
Reads, installs, removes and replaces water meters in the homes of consumers;
Locates leaks, installs clamps and sleeves and makes other emergency repairs;
Installs, repairs and resets hydrants, valves, mains, pumps and related water and sewer distribution equipment;
Excavates for, lays and maintains water and sewer mains and lines;
Chlorinates, plugs and flushes new water to insure that proper sanitary standards are met;
Makes hydrant and line pressure and flow tests;
May operate a truck, backhoe, bucket loader and compressor in a variety of maintenance and repair situations;
Investigates complaints concerning blockages, low pressure and rusty water.

FULL PERFORMANCE KNOWLEDGES, SKILLS, ABILITIES & PERSONAL CHARACTERISTICS:

Good knowledge of common practices, principles, terminology and safety precautions used in the maintenance and extension of the municipal water and sewer system; good knowledge of the use of tools and equipment required in the construction and repair of municipal water and sewer systems; ability to perform heavy manual labor for extended periods, occasionally under adverse weather conditions; ability to understand and carry out oral and written directions; ability to get along well with others; willingness to report for emergencies, physical condition commensurate with the demands of the position..
