The New York State Department of Civil Service has not prepared a test guide for this examination. However, candidates may find information in the publication 'General Guide to Written Tests' helpful in preparing for this test. This publication is available on line at:<https://www.cs.ny.gov/testing/testguides.cfm>

SENECA COUNTY IS AN EQUAL OPPORTUNITY/AFFIRMATIVE ACTION EMPLOYER

SUBJECT OF EXAMINATION: A written test designed to evaluate knowledge, skills and /or abilities in the following areas.

1. **Preparing written material**

These questions test for the ability to present information clearly and accurately, and to organize paragraphs logically and comprehensibly. For some questions, you will be given information in two or three sentences followed by four restatements of the information. You must then choose the best version. For other questions, you will be given paragraphs with their sentences out of order. You must then choose, from four suggestions, the best order for the sentences.

¹ The term “natural science” shall mean a science such as biology, chemistry or physics that deals with the objects, phenomena, or laws of nature and the physical world. It shall include all physical and biological sciences.

² The term “applied science” shall mean science based courses in environmental technology, sanitation technology, medical technology, public health, infection control or food science.

2. **Evaluating conclusions in light of known facts**

These questions will consist of a set of facts and a conclusion. You must decide if the conclusion is proved by the facts, disproved by the facts or if the facts are not sufficient to prove or disprove the conclusion. The questions will not be specific to a particular field.

3. **Arithmetic reasoning**

These questions test for the ability to solve basic arithmetic problems presented in sentence or short paragraph form. The problems may require the use of addition, subtraction, multiplication, division, determining percentages, and basic algebraic and geometric calculations. **You should bring with you a hand-held battery- or solar-powered calculator for use on this test.** You will **not** be permitted to use the **calculator** function of your **cell phone**.

4. **Basic principles of biology, chemistry, and general science**

These questions test for knowledge of elementary concepts and principles in the fields of general science, biology, and chemistry.
